***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1- 12 and 14-18, drawn to an embossing tool or apparatus, classified in class 101, subclass 3.1.

II. Claims 13, 19, 20 and 24 drawn to a method for fabricating an embossing tool, classified in class 29, subclass 825.

III. Claims 21-23, drawn to a method for preventing compaction or distortion of an imprinting material, classified in class 101, subclass 483.

Inventions of Group I and Group II are related as an apparatus and a process for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case apparatus can be used to make a printing plate.

Inventions of Groups I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of Groups I, II and III is that Group I, II have different modes of operation and different functions since the inventions of the groups do not need the rail of rigid material of Group III to be operated.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2854

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
